## **BACKGROUND AND RATIONALE:**

Education is an important pillar of any society, fundamental to achieving full human potential and developing an equitable and just society for promoting national development. Higher Education plays a vital role in educating the next generation of leaders. National Education Policy (NEP) 2020 focuses on key reforms in higher education that prepare the next generation to thrive and compete in the new digital age. NEP-2020- National Education Policy 2020 (NEP) has marked an epoch development in the educational landscape of India. The policy envisions an India centered education system compatible to transform India to a vibrant knowledge society.

Remarkably, the thrust area of the new education policy is to make the system of education well-resourced and multidisciplinary by the consolidation of multiple educational institutions and disciplines. The proposed creative combination of study and multiple entry and exit makes the system highly flexible and accessible. The traditional rigidity of the formal system and standalone institutions will be replaced with high-quality liberal education that provides an optimal learning environment and multidisciplinary education that provides adequate provision for student mobility.

Accordingly, NAAC has decided to incorporate preparedness for NEP 2020 in all the formats of AQAR Guidelines from the Academic Year 2021-2022, as the NEP seeks to transform the entire education space through its directive vision for HEL.

This seminar is being organized with a view to providing a common platform to academicians from higher education Institutions who are engaged in the implementation and management of quality system includes regulators, managements, principals, IQAC Coordinators and Teaching fraternity from higher Education to deliberate on diverse perspectives of the New National Education Policy-2020.

The objective is to facilitate the academicians to take the right path in framing Institutional strategies, well preparedness and the purpose is to provide an understanding of the proposed reforms and ease in creation of a roadmap for effective implementation of National Education Policy-2020.

With this perspective, the Priyadarshini J.L. College of Engineering Nagpur organized one day National Seminar on the topic “Institutional Strategies Preparedness & Implementation for National Education Policy-2020” on Sept. 10<sup>th</sup>, 2022.

## **FOREWORD:**

Technological Innovations and its integration has completely changed our daily lives in recent times, education being no exception. In fact, integration of technology has changed higher education globally over last few years. Unless we catch up with these changes and make reform in the way we teach, learn and evaluate we will be left behind and fail to meet the challenges in the future. It is in this context PJJCE, organized a one day National seminar on “Institutional Strategies Preparedness &Implementation for National Education Policy-2020”.

It is glad to note that the Internal Quality Assurance Cell of our College is organized a National Seminar on 10<sup>th</sup> September 2022 on the same. I look forward to see this academic endeavor as a concrete step towards identifying innovative and effective strategies for bringing out changes in the present student assessment and evaluation system. I would like to thank National Assessment & Accreditation Council (NAAC) for sponsoring this seminar.

I am glad to note that the IQAC is also bringing out Proceedings of the Seminar that includes invited talks of the resource persons and contributions of the participants.

My best wishes and appreciations to the IQAC Coordinator and all organizing committee members for taking stupendous efforts in organizing this programme and making it a grand success.
